ABOUT US

融达 RONGDA

Founded in 1997, Wuxi Rongda Auto Parts Co., Ltd. is an established manufacturer specializing in automotive stamping components, welded assemblies, precision-machined parts, and pipe fittings. Driven by in-house mold development capabilities and an expert technical team, the company delivers tailored solutions engineered to precise client requirements. With an industry-leading reputation in automotive stamping, Wuxi Rongda currently offers a mature portfolio comprising over 500 high-quality products.

无锡市融达汽车零部件有限公司始建于1997年，是一家专业生产汽车冲压件、焊接件、精加工及管件的企业。企业具有独立的模具开发能力，且拥有专业的技术团队以满足客户对产品的各种需求。公司在冲压件的生产方面有着一定的领先优势，目前拥有成熟产品500余种。

Workshop Layout

Heavy-Plate Stamping and Precision Machining Workshop

Contains 8kW flatbed laser cutting machine; 500T, 250T, and 165T punch presses; and a comprehensive suite of metal processing equipment, including machining centers, CNC lathes, drilling machines, and grinders. We specialize in heavy-plate stamping and cold-work precision machining. Plans for this year include the addition of one 20kW flatbed laser cutting machine to further expand our capacity.

Workshop Layout

Thin-Walled Stamping Workshop

5 automatic feeders; 250T, 165T, and 80T punch presses; 500T, 315T, and 200T hydraulic presses; additional 250T, 165T, and 80T presses; and ultrasonic cleaning machines.

Workshop Layout

Welding Workshop:

6 robotic welding machines, 3D laser cutting machines, argon arc welding (TIG) equipment, and resistance welding machines.

FUTURE PLANS

Talent Development

The company plans to establish stable school-enterprise partnerships with academic institutions to recruit specialized technical talents, strengthen our R&D team, and build a strong talent foundation for future product innovation and technological upgrades.

R&D & Partnerships

The company will introduce advanced laboratory equipments to strengthen our R&D infrastructure and core competitiveness. At the same time, we will actively collaborate with domestic and international automakers, Tier-1 suppliers, and research institutions to co-develop, manufacture, and market products—sharing resources and risks to achieve mutual growth.

Logistics & Warehousing

The company will prioritize the construction of our third-party (3PL) warehouse, strictly controlling timelines and quality to ensure it reliably meets diverse client demands on schedule, thereby safeguarding customer satisfaction and supply chain efficiency.

Strategic Growth & Sustainability

The company remains committed to enhancing product quality and technology as a core focus, while leveraging technical optimization to reduce overall production costs. Concurrently, we are driving a green, eco-friendly transition to comprehensively boost our competitive edge in the international market and forge deep, strategic partnerships with vehicle manufacturers.
